Summary

This booklet details a list of the services and other items for which Inverclyde Council impose fees or charges and applies from 1st April 2023 to 31st March 2024.

Inverclyde Council operates a corporate approach to achieve Best Value when implementing its charging policy.

Charges are paid by two methods; at the time of booking/delivery of service or through the raising of a debtors account.

When issuing a debtors account the council's best practice policy is followed which establishes guidelines on the issuing of invoices to ensure an efficient practice is followed.

This charges booklet can be found on the Inverclyde Council website at **www.inverclyde.gov.uk**

Where a charge is inclusive of VAT this is calculated at 20.0%. Statutory charges are subject to revision per governing legislation.

Building warrant fee and discounts

The Building (Scotland) Act 2003 permits the optional procedure for design or construction work to be certified by qualified, experienced and reputable building professionals and tradesmen as complying with the building regulation

Certification may **only** be undertaken by an approved certifier of design or an approved certifier of construction who is registered in an appropriate approved certification scheme and, where relevant, holds the appropriate designation(s) in such a scheme.

Using this optional procedure allows percentage discounts from the **Payable Fee** (fee due as calculated from the Estimated Value of Works Table) as follows:

Certifiers of Design

Where one or more certificates are presented with a warrant application the Payable Fee is discounted at rates of between 3% and 20%. For details, please contact the Building Standards Office or refer to the Scottish Building Standards Procedural Handbook.

NOTE: These discounts also apply when a certificate from an Approved Certifier of Design has been submitted with a Completion Certificate where there is no warrant.

Certifiers of Construction

Where the Verifier is informed on the warrant application form of the intention to use an Approved Certifier of Construction, discounts of between 3% and 20% may apply.

For details, please contact the Building Standards Office or refer to the Scottish Building Standards Procedural Handbook.

Roads Construction Consent (RCC)

For a residential development, a developer must lodge a security, in the form of a road bond or deposit, in favour of the Roads Authority, to cover the cost of providing the roads to the standard set out in the Road Construction Consent. The road bond is intended to protect prospective house purchasers from having to arrange completion of roads to adoptable standards, in the event that the developer is unable to do so. The security must be lodged prior to commencement of any building works. This is in accordance with Section 17 of The Roads (Scotland) Act 1984 and The Security for Private Road Works (Scotland) Regulations 1985, as amended by The Security for Private Road Works (Scotland) Amendment Regulations 1998. (Registered Housing Associations are exempt)

Roads Construction Consent inspection fees under Section 140(6) of Roads (Scotland) Act 1984 (minimum inspection fee £960)	£60 per £1,000 of road bond value or construction cost
Minimum Inspection fee	£960.00

- Permits are paid at time of purchase (Domestic and Trade Customers)
- Any additional work will be charged at the councils recharge rates plus VAT
