

Inverclyde Council Cookie Usage

Inverclyde Council does not store any personal or tracking information on your computer via its web site. We use only the cookies detailed below which are deemed essential to the functionality of the site.

Source: Cookie(s)	Where/Why Set	Comments
CMS – Accessibility: <i>Accessibility.Colour</i> <i>Accessibility.Size</i> <i>Accessibility.TextOnly</i>	Set <i>only</i> when a user selects one or any of the text only, text size or contrast options. This remembers the selection so that each page and future visits to your website retains the same look and feel selected.	If we remove this users with visual impairments would have to select the text size and contrast on each page load and visit to the website.
CMS – Members: <i>.ASPXAUTH.ModuleServices</i> <i>.Member</i> <i>memberInfo</i>	Set only when a user logs into the website. This stores important information so that the site can authenticate them.	Removal of this will prevent users from being able to register and log in to the site.
CMS - Meetings: <i>Meetings.PeriodEndDate</i> <i>Meetings.PeriodStartDate</i>	Set to remember the calendar range selected while the user navigates around the meetings section.	Removal of this will prevent the Committee calendar from operating correctly.
Forms: <i>ASP.NET_SessionId</i> <i>ASPSESSIONID####</i>	Set when a user visits any form that is powered by FormsMaster (Inverclyde Council's online form software). This is used to track the user session as they fill out the form and is used as an identifier for form filling purposes only.	Removal of this will prevent users from filling in and submitting forms.
JSESSIONID	Set when a user visits the online planning server. This is necessary so that the software can keep track of a user's search session. No personal information is gathered or kept. Cookie expires at the end of the session.	Removal of this will stop the planning site from working.
SVLID_80 & PQID_80	Set when a user visits the libraries online catalogue. These are used to keep track of the user's search and browsing session.	Removal of these cookies will stop the Libraries online catalogue from working.
