regulation 3	(1)	Regulations 8 to 12 shall not apply to any <i>building</i> or any services, fittings and equipment the whole of which falls into any one or more of the exempted types described in schedule 1.	
mandatory	(2)	 The provision of: (a) services, fittings and equipment to, or the demolition or removal of, exempted <i>buildings</i> is exempt; and (b) services, fittings and equipment to, or the demolition of, exempted services, fittings and equipment is exempt. 	
	(3)	For the purposes of this regulation, for the avoidance of doubt, each such exempted type does not include any of the exceptions expressed in relation to that type.	

0.3.1 Explanation

Regulation 3 and schedule 1 set out what *buildings* and *work* are exempted from the building regulations. The general principles applied to establish exemption are that the regulations do not need to apply where:

- other legislation covers the buildings or work (types 1 3);
- the *buildings* or *work* are covered by another regulation (type 4);
- the buildings or work are not normally frequented by people (types 5 8);
- the *buildings* or *work* are so separated that the regulations are largely inappropriate, and are likely in any case to be supervised by specialists including civil engineers (types 9 - 12);
- the *buildings* or *work* are sufficiently minor that they have little or no impact on the public interest and it is not in the public interest to seek to enforce the regulations (types 13 - 15 and 17 - 21);
- the *buildings* or *work* are temporary (type 16).

Particular care is necessary where exempted *work* is in the vicinity of, or attached to, an existing *building*. The level of compliance of the existing *building* with building regulations should not be adversely affected when exempt *works* are undertaken.

Where exempt *work* requires that alteration is made to an existing *building* to maintain the level of compliance with building regulations, a building warrant may be required. For example where it is intended to *construct* a porch, which falls within type 18, over an accessible entrance and a new accessible entrance is required.
