OPPORTUNITY.

That intangible and mysterious thing called "opportunity," about which so much has been written, is not an unknown stranger that knocks at your door, not a spirit that suddenly awakens you from your sleep to bring you good tidings.

Opportunity is as constant as the shadows that walk with you and is always present in your affairs, regardless of position or circumstances.

Opportunity is Co-operation—waiting, ready and willing to help you and yours to a brighter and fuller existence—not for one day only, but for every day of your life.

In justice to yourself and your family, you cannot afford to neglect opportunity, which is Co-operation. Grasp it to-day. There is no time like the present.
