

New Greenock Health Centre

Welcome to our newsletter, which aims to keep you up-to-date with what is happening on our site.

Newsletter No. 03 – April 2019

What we're building

BAM is managing the construction of the new Greenock Health Centre at 26 Wellington Street, Greenock PA15 4NG.

It is a new build Health & Care Centre project delivered through the Hub West Scotland framework with a value of approximately £21 million.

The project commenced on site the 21st Jan 2019 for a period of 83 weeks. Principle activities on the project will involve bulk earthworks to the main site and North Car park, substructure, superstructure and envelope / roofing works. This will be followed by internal fit-out works to the building. Externally it incorporates car parking, soft landscaping and a landscaped courtyard to the building.

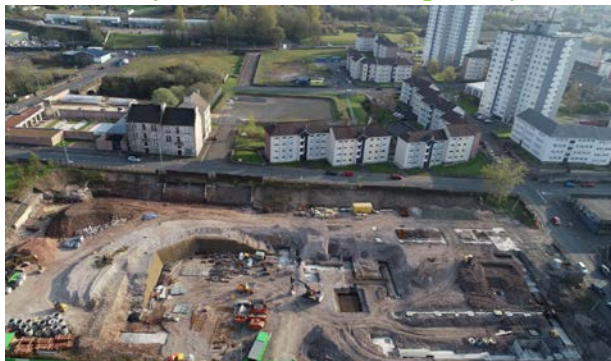

Services based at the new state-of-the-art centre will include four GP practices, a community hub, dentistry, podiatry, physiotherapy, sexual health, treatment rooms, district nursing, health visiting, school nursing, home care teams, child and adult mental health, speech and language therapy, out-patient clinics and a cafe.

The new centre will aim to provide modern health and social care premises, and will expand the range of services available.

About BAM

BAM Construction is part of BAM Construct UK which is one of the country's largest construction services organisations with a turnover of more than £900 million. We operate throughout England, Scotland and Wales. Our European parent company is Royal BAM Group which employs over 25,000 people worldwide and has a turnover of €7billion.

What's happening and what's coming up?

Works are progressing well and we are carrying out the following works;

- Foundation excavations and bulk muckshift
- Concrete pours to foundations.
- Car Park formation.
- Retaining walls ongoing.
- New drainage tie-in on Wellington Street.

Environment and community

BAM is committed to helping the environment and community. This includes reducing our carbon emissions, recycling, and wherever possible diverting waste from landfill. There will be a number of environmental targets set for the project.

We are also committed to making a difference in the communities in which we work and live and our projects aim to deliver economic and social benefit. On this project we will develop a project specific community engagement plan which will aim to deliver real benefits for the area.

Please help us with safety

Construction sites can be dangerous. At BAM our top priority is the health and safety of everyone who works on our sites, the public and the local community affected by our work. If you need to contact us, please ring us or call our office but please do not enter the site.

Please make any children in your care aware that our building site is not a playground and that they must not enter the site. Thank you for your co-operation.

Contacting the site team
