**Report To:** Inverclyde Integration Joint Board      **Date:** 24 June 2019

**Report By:** Louise Long  
Corporate Director (Chief Officer)  
Inverclyde Health & Social Care Partnership      **Report No:** IJB/46/2019/HW

**Contact Officer:** Helen Watson  
Head of Strategy and Support Services      **Contact No:** 76097

**Subject:** LOCAL CHILD POVERTY ACTION REPORT

---

## **1.0 PURPOSE**

- 1.1 The purpose of this report is to present the Board with the draft Inverclyde Local Child Poverty Action Report (LAR).

## **2.0 SUMMARY**

- 2.1 Under the Child Poverty (Scotland) Act 2017 there is a requirement for all local authorities and relevant Health Boards across Scotland to reduce child poverty. The Act sets out four national statutory income based targets to be achieved by 2030. The four targets are:-
- Less than 10% of children are in relative poverty
  - Less than 5% of children are in absolute poverty
  - Less than 5% of children are in combined low income and material deprivation
  - Less than 5% of children are in persistent poverty
- 2.2 The Act requires that each local authority and relative NHS Health Board must jointly prepare annual Local Child Poverty Action Reports (LARs). The first report will cover the financial year 2018/19. These annual reports must set out the activity undertaken during the reporting period and those planned going forward to meet the 2030 targets. The report requires to be submitted to the Scottish Government by 30 June 2019.
- 2.3 Child poverty is a significant issue for a large number of families in Inverclyde. In recognition of this, funding has been allocated to some actions included within the LAR to specifically develop strategies and implement projects with the aim of reducing child poverty in Inverclyde.
- 2.4 It is recognised that a multi-agency approach is required in order to tackle poverty, and partners delivering activities at a local level to tackle Child Poverty must be involved in the forward planning element. To facilitate this, an Inverclyde Child Poverty Action Group has been established. Membership of the group:-

<b>Designation</b>	<b>Service</b>
Corporate Director	Education, Communities and Organisational Development
Corporate Policy Officer (Poverty)	Corporate Policy
Service Manager	Children's Specialist Service
Children's Planning and Improvement Officer	Children & Families
Manager	Corporate Policy, Performance and Partnership
Principal Benefits and Customer Services Officer	Finance
Service Manager	Children & Families
Team Leader	Public Health and Housing
Head of Inclusion, Culture and Communities	Inclusion, Culture and Communities
Quality Improvement Officer, Early Years	Education
Head of Organisational Development, Policy and Communications	Organisational Development, Policy and Communications
Service Manager	Community Learning & Development, Community Safety and Resilience
Acting Head of Education	Education
Implementation Lead	CELCIS
Health & Wellbeing and Poverty Linked Initiatives Officer	Education
Chief Executive Officer	CVS
Operations Manager	The Trust Employability Service
Service Manager	Strategy and Support Services
Service Manager	Primary Care, Public Health & Equalities
Project Manager	Scottish Attainment Challenge

2.5 The Inverclyde Child Poverty Action Group has agreed that the Inverclyde LAR should focus on a small number of set themes. Each theme provides an overview of current service provision and what is planned for the year ahead. Appendix 1.

2.6 The draft Inverclyde LAR Report 2018/19 is provided for the consideration and approval of the Board in Appendix 1.

### **3.0 RECOMMENDATIONS**

3.1 It is recommended that Inverclyde Integration Joint Board:

Approves the themes and detail contained within the draft Inverclyde Local Child Poverty Action Report.

**Louise Long**  
Chief Officer

## 4.0 BACKGROUND

4.1 The Fairer Scotland Strategy set out a vision to ensure that Scotland is the best place in the world to grow up. To realise this outcome, it is committed to eradicating child poverty. Evidence suggests that poverty can undermine the health, wellbeing and educational attainment of children who experience it. A 2013 study found that child poverty in the UK cost at least £29 billion a year.

### 4.2 Child Poverty (Scotland) Act 2017

This legislation sets out a clear agenda for measuring, reporting on and reducing child poverty levels across Scotland. There are a number of statutory requirements which are set out below:

- Four statutory national **income** targets, to be met in the financial year beginning 1 April 2030
- Places a duty on local authorities and health boards to report annually on activity taken, as well as planned action to contribute to the reduction of child poverty by 2030.
- Four **interim income** targets, to be met by Scottish ministers in the financial year beginning 1 April 2023 and 2026.
- Places a duty on Scottish ministers to publish child poverty delivery plans in 2018, 2022 and 2026, and to report progress towards meeting the 2030 targets.
- To report on delivery plans annually.
- The creation of a Poverty and Inequality Commission to be established from 1 July 2019 with functions related to the child poverty national reduction targets.

Scotland is now the only part of the UK with statutory targets to reduce child poverty.

## 5.0 IMPLICATIONS

### 5.1 FINANCE

Cost Centre	Budget Heading	Budget Years	Proposed Spend this Report £000	Virement From	Other Comments
N/A					

Annually Recurring Costs / (Savings)

## LEGAL

5.2 The Child Poverty (Scotland) Act places a legal requirement on Councils and NHS Health Board to produce a Local Child Poverty Action Report.

## HUMAN RESOURCES

5.3 There are no specific human resources implications arising from this report.

## EQUALITIES

5.4 Has an Equality Impact Assessment been carried out?

X

YES

NO – This report does not introduce a new policy, function or strategy or recommend a change to an existing policy, function or strategy. Therefore, no Equality Impact Assessment is required.

5.5. How does this report address our Equality Outcomes?

Equalities Outcome	Implications
People, including individuals from the above protected characteristic groups, can access HSCP services.	The 6 Big Actions are designed to promote fairness and better outcomes, and as such, should support better access for people from the protected characteristic groups.
Discrimination faced by people covered by the protected characteristics across HSCP services is reduced if not eliminated.	As above.
People with protected characteristics feel safe within their communities.	As above.
People with protected characteristics feel included in the planning and developing of services.	As above.
HSCP staff understand the needs of people with different protected characteristic and promote diversity in the work that they do.	As above.
Opportunities to support Learning Disability service users experiencing gender based violence are maximised.	None
Positive attitudes towards the resettled refugee community in Inverclyde are promoted.	As above.

## CLINICAL OR CARE GOVERNANCE IMPLICATIONS

5.6 There are no clinical or care governance implications arising from this report.

## 5.7 NATIONAL WELLBEING OUTCOMES

How does this report support delivery of the National Wellbeing Outcomes?

National Wellbeing Outcome	Implications
People are able to look after and improve their own health and wellbeing and live in good health for longer.	Having an adequate income can help people to avoid stress, adopt and maintain healthy behaviours which will allow them to access the opportunities needed for a healthy life.

People, including those with disabilities or long term conditions or who are frail are able to live, as far as reasonably practicable, independently and at home or in a homely setting in their community	None
People who use health and social care services have positive experiences of those services, and have their dignity respected.	Reducing poverty and inequalities in income and wealth is important in reducing health inequalities.
Health and social care services are centred on helping to maintain or improve the quality of life of people who use those services.	None
Health and social care services contribute to reducing health inequalities.	Reducing poverty and inequalities in income and wealth is important in reducing health inequalities.
People who provide unpaid care are supported to look after their own health and wellbeing, including reducing any negative impact of their caring role on their own health and wellbeing.	None
People using health and social care services are safe from harm.	None
People who work in health and social care services feel engaged with the work they do and are supported to continuously improve the information, support, care and treatment they provide.	None
Resources are used effectively in the provision of health and social care services.	None

## Foreword

We are pleased to introduce the first Inverclyde Child Poverty Action Report.

Inverclyde is an area with many strengths and a great deal to be proud of, however there are communities where levels of poverty and inequality are disproportionately high. Too many children in Inverclyde are currently living in poverty and experiencing poorer outcomes as a result of this. Urgent action is needed now, both to help these children and to prevent future generations of children growing up in poverty.

Poverty however is multi-dimensional in nature and one organisation alone cannot deliver the change that is required to tackle its root causes. Collaboration is essential to bring resources, knowledge and expertise together that can make lives better for those children and young people in our communities experiencing the greatest inequalities.

That is why, to inform the development of this Inverclyde Local Child Poverty Action Report, we held a dedicated Inverclyde Child Poverty Event 'Every Child, Every Chance' in October 2018. This event was the first of its kind locally and was attended by more than 100 representatives from across the public and the third sectors. It provided an invaluable opportunity to learn more about the drivers of poverty, to discuss the particular issues prevalent in our communities and to forge closer professional relationships. The event was a great success and provided a robust platform on which to develop this Inverclyde Child Poverty Action Report.

We know that poverty is not inevitable and we are committed to working together, sharing our learning and developing new ways of working in order to deliver improved outcomes and life chances for the children and young people of Inverclyde.

**NHS Greater Glasgow and**  
**Clyde**

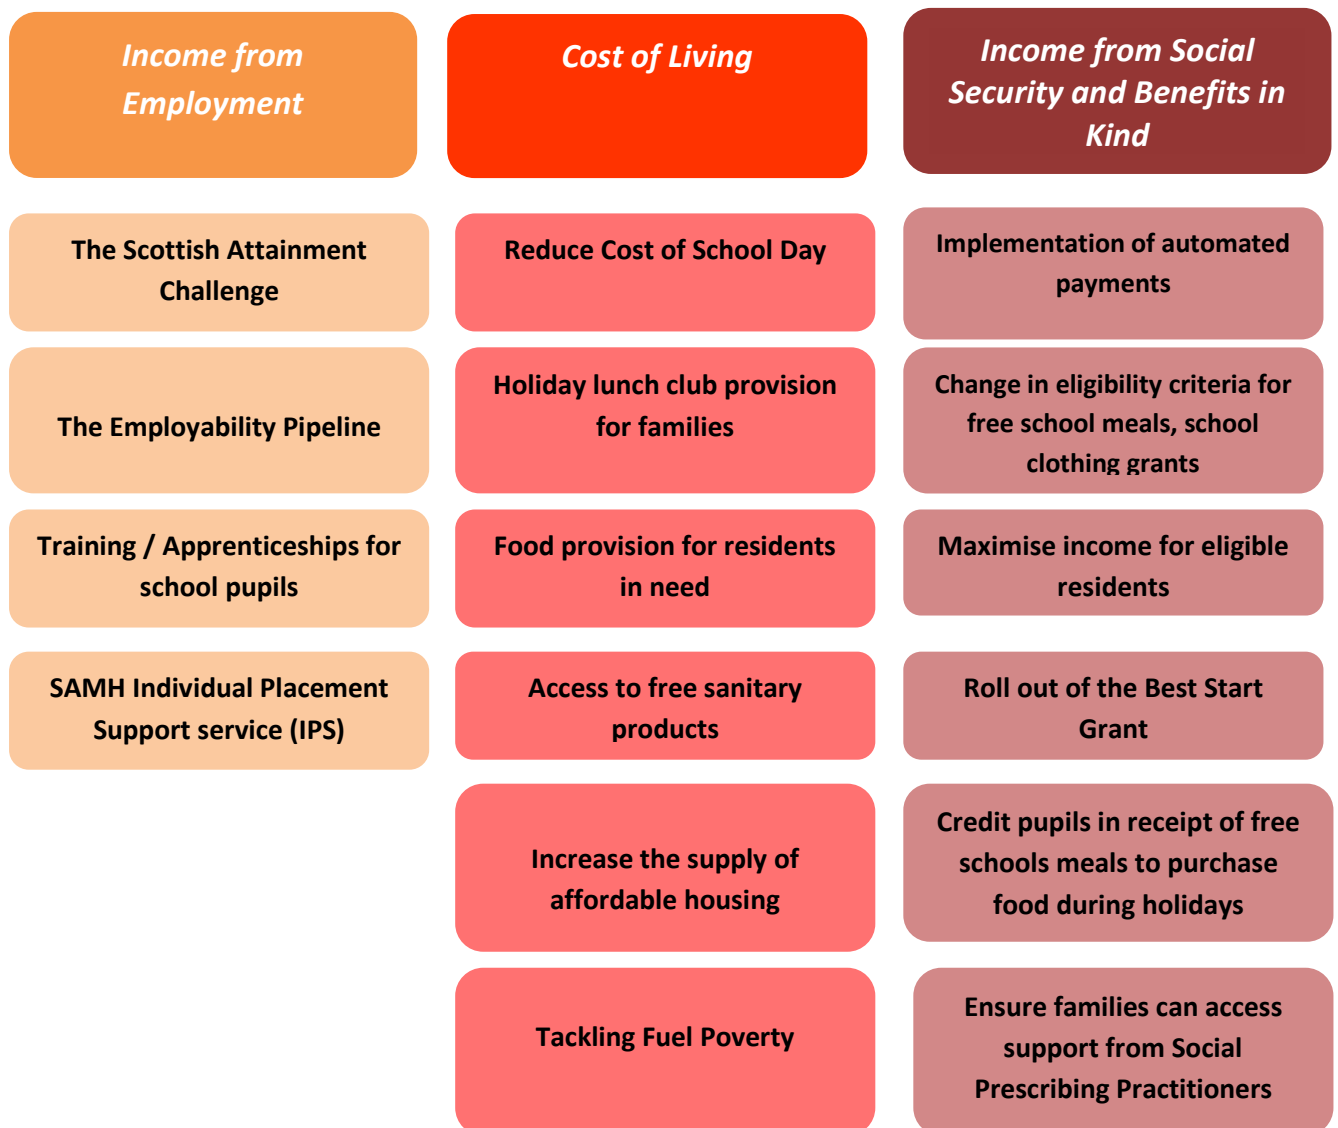

# Executive Summary

Just over 1 in 4 children in Inverclyde is living in poverty, increasing to 1 in 3 in some of our communities. Partners in Inverclyde recognise that child poverty and deprivation limits opportunities and choice and that by tackling child poverty; alleviating the financial strain on low income households and improving the living standards of families in poverty, we will help to improve outcomes for our children and young people and create thriving, sustainable communities across Inverclyde. In doing this, we will achieve our vision of 'Getting it right for every child, citizen and community'.

This Inverclyde Local Child Poverty Action Report sets out what actions Inverclyde Council and NHS Greater Glasgow and Clyde, along with partners, will take to reduce child poverty in Inverclyde. The report sets out what we have done in the past year and what we plan to do in the year ahead.

The diagram below provides an overview of the local actions for delivery within this Inverclyde Child Poverty Action Report and how they link to the national drivers of poverty:

In developing this Child Poverty Action Report we have looked at what we know is working, sharing our learning and developing approaches, however radical, to doing things differently to tackle the poverty and inequalities that exist in our communities. The initiatives described below are intended to provide a flavour of the work that is being taken forward in Inverclyde to tackle child poverty.

### **Implementation of Automated Payments**

We have identified that the application process for school clothing grants, free school meals and EMAs can act as a barrier to some families, resulting in them not claiming what they are entitled to. Work is currently being carried out to explore how information currently held by Finance for Council Tax Reduction purposes can be used to provide automated payments to those eligible families, to ensure that they receive these benefits without the additional requirement to complete the application forms.

### **Income Maximisation for pregnant women and families with children**

NHS Greater Glasgow and Clyde received £63,750 in 2018/19 for the enhancement of referral pathways into income maximisation for pregnant woman and families with children. Specifically, this money will be used to:

- Create local capacity in Health Board areas to establish or enhance referral pathways;
- Plan and delivery of training on child poverty, money matters and referral pathways for universal maternity and health visiting workforce;
- Develop formal referral pathways; and
- Negotiate additional capacity with local advice services.

Inverclyde Council has been allocated £2,704 of this funding and Child Poverty Action Group will use this to deliver input to midwifery, family nurse and health visiting staff around maternity and other benefits.

### **Cost of the School Day**

'Cost of the School Day' awareness raising sessions have been carried out with the Head Teaches of all Inverclyde schools. As a result, new projects and initiatives have been adopted by local schools to reduce the cost of the school day, including:

- The purchase of additional PE kits to increase participation and allow children to exercise in comfort;
- Uniform swaps / banks;
- A reduction in the number of non-uniform days with no set donation;
- A reduction in fundraising events; and
- Offers of support for school trips to ensure opportunity for all.

The next stage will be to train local 'Cost of the School Day Champions' who will work to raise awareness amongst staff, parents and carers within the school community.

# Our Plan

## Introduction

Under the Child Poverty (Scotland) Act 2017 there is a requirement for all local authorities and relevant Health Boards across Scotland to reduce child poverty. The Act sets out four national statutory income based targets to be achieved by 2030. The four targets are:-

- Less than 10% of children live in households that are in relative poverty
- Less than 5% of children live in households that are in absolute poverty
- Less than 5% of children live in households that are in combined low income and material deprivation
- Less than 5% of children live in households that are in persistent poverty

The Act requires that each local authority and relative NHS Health Board must jointly prepare annual Child Poverty Local Action Reports (LAR's). The first report will cover the financial year 2018/19. These annual reports must set out the activity undertaken during the reporting period and those planned going forward to meet the 2030 targets.

The direct drivers of poverty fall in to 3 main categories:-

## How the risk of child poverty varies between different groups

## Child Poverty in Inverclyde

Inverclyde's population in 2017 was estimated to be 78,760. Just under one fifth, (19.4%) of the population is aged 18 years or younger. The age breakdown is shown in the graph below.

*Source: NRS, Mid-year population estimates, 2017*

According to poverty figures published by End Child Poverty, Inverclyde has the sixth highest level of child poverty in Scotland, after housing costs. It is estimated that just over 1 in 4 (25.7%) children and young people in Inverclyde are living in poverty.

### Comparison of child poverty levels across Scottish LA areas, 2017

Source: End Child Poverty, published January 2018

However, poverty levels vary significantly across the authority. The graph below shows that in Inverclyde East Central, child poverty levels rise to almost 1 in 3 children and young people.

### Child Poverty levels in Inverclyde (after housing costs)

(n.b ward boundaries as of 2013)

## The Attainment Challenge

Differences in educational attainment can be a consequence of poverty but can also drive it too. It has been recognised nationally that there is a clear and persistent gap in attainment between pupils living in Scotland's most and least deprived areas. Educational attainment affects employment prospects later in life and in turn, the risk of future poverty. Children who achieved higher qualification levels increase their probability of being employed and having access to increased earnings.

The Scottish Attainment Challenge was launched by the Scottish Government in February 2015 with a focus on improving outcomes in literacy, numeracy and health and wellbeing for children from disadvantaged backgrounds.

Inverclyde was one of the first attainment challenge authorities in Scotland. This funding has been used to implement proven interventions designed to improve outcomes for children, and their families, including:

- increasing leadership at all levels, including parents and children;
- further strengthening links with third sector partners, including Barnardo's;
- embedding nurture across the education system; and
- supporting the skilled understanding and use of data for improvement.

The graph below shows that just under half of all pupils in Inverclyde schools live in the areas of highest deprivation categorised as SIMD 1 and 2. This is well above the national average. Moreover, Inverclyde has more than twice the national average number of pupils living in SIMD 1.

## Locality Planning

Partners have recognised that there are particular communities in Inverclyde that suffer from higher levels of multiple deprivation and experience the greatest inequalities and therefore require targeted support and attention.

The Inverclyde Alliance is currently developing its approach to locality planning in Inverclyde and has produced Locality Plans for three areas in Inverclyde which experience the greatest level of inequality and deprivation.

Inverclyde has committed to developing these plans with communities, co-producing them using asset based community development. Work with communities has been going on via Aspiring Communities funded activity and is being used to inform the Locality Plans for Port Glasgow, Greenock East and Central and Greenock South and South West. This is in addition to the large scale community engagement programme 'Our Place, Our Future' which informed the Inverclyde Outcome Improvement Plan, and the responses from that have been broken down into the localities.

## Developing our Local Child Poverty Action Report

Tackling child poverty, alleviating the financial strain on low income households and improving the living standards of families in poverty is key to improving outcomes for future generations and creating thriving, sustainable communities across Inverclyde.

Research has shown that childhood experiences have a strong bearing on a child's prospects in adulthood. Children that have grown up in poverty have a much higher likelihood of having poorer experiences than those who have grown up in better off households.

The Scottish Public Health Network report 'Polishing the Diamonds', Addressing Adverse Childhood Experiences (ACEs) in Scotland highlighted that ACEs have been shown to be related to deprivation with the experience of four or more ACEs being reported by 4.3% in the least deprived quintile and 12.7% in the most deprived quintile. ACEs and particularly childhood abuse and neglect are linked to poverty in adulthood.

- **Inverclyde Child Poverty Action Group (CPAG)**

Poverty is multi-dimensional, many people move in and out of poverty during the course of a year or over their lifetime, while a minority are in poverty for longer periods of time. Levels of poverty also vary, from people who are just under the poverty threshold to those who are in severe poverty or destitute and struggle to acquire the basic necessities of life. A partnership approach is essential to ensure that we develop a holistic approach locally to tackling poverty. Partnership working also has the benefit of collaborative gain, where we can achieve more than the sum of our parts.

Recognising this, we have established an Inverclyde Child Poverty Action Group, encompassing a wide range of partners:

Designation	Service
Corporate Director	Education, Communities and Organisational Development
Corporate Policy Officer (Poverty)	Corporate Policy
Service Manager	Children's Specialist Service
Children's Planning and Improvement Officer	Children & Families
Manager	Corporate Policy, Performance and Partnership
Principal Benefits and Customer Services Officer	Finance
Service Manager	Children & Families
Team Leader	Public Health and Housing
Head of Inclusion, Culture and Communities	Inclusion, Culture and Communities
Quality Improvement Officer, Early Years	Education
Head of Organisational Development, Policy and Communications	Organisational Development, Policy and Communications
Service Manager	Community Learning & Development, Community Safety and Resilience
Acting Head of Education	Education
Implementation Lead	CELCIS
Health & Wellbeing and Poverty Linked Initiatives Officer	Education

Designation	Service
Chief Executive Officer	CVS
Operations Manager	The Trust Employability Service
Service Manager	Strategy and Support Services
Service Manager	Primary Care, Public Health & Equalities
Project Manager	Scottish Attainment Challenge

An essential element in reducing child poverty in Inverclyde is effective engagement with those coping with the challenges of living in poverty. By developing a greater understanding and raising awareness across partners of the causes and effects of poverty, we can deliver services in a more targeted way as well as enhance the service that we are providing. Most importantly of all, it will ensure that the voices of those that are experiencing poverty are being heard.

Strengthening and building on the engagement that has already taken place is a key priority for the Inverclyde Child Poverty Action Group and we are currently looking at the best ways to develop our community engagement further.

- **Inverclyde Child Poverty Event ‘Every Child Every Chance’**

The Inverclyde Child Poverty Event ‘Every Child, Every Chance’ was the first event locally where services and organisations came together as a whole to discuss how together, we can work to eradicate child poverty.

The event was attended by 103 people from various Services, organisations and the 3rd Sector. Of those attending, 26% of participants were from Inverclyde Council (Education Services); 17% from other Services within Inverclyde Council and 15% of participants were from the HSCP. The remainder of participants, 42%, were from the 3rd Sector.

The event was a success for Inverclyde, providing participants with the opportunity to gain an insight into the requirements for the Local Action Report, providing networking opportunities with other Agencies/Services and increasing the knowledge and understanding of participants as to what services are available that can support families living in poverty. An evaluation of the event was carried out which showed that it was positively received.

- **Clyde Conversations 3**

The third annual Inverclyde ‘Clyde Conversations’ event, which is an event solely for our young people in secondary schools took place in February 2018, with a follow up event in November 2018. Clyde Conversations is planned and co-delivered by the young people of Inverclyde, including agreeing a series of workshops to enable young people to have the opportunity to take part in decisions that affect their lives. The focus of the workshops was:

- Mental Health
- Career & Job Prospects
- Alcohol & Drugs
- Pupil Voice
- Hate Crime
- Sexual Health
- Young People’s Reputations

83 young people from across Inverclyde secondary schools attended the event. A number of actions emerged from the event and these will be taken forward by partners.

- **Our Place Our Future**

As part of the development of the Inverclyde Outcomes Improvement Plan, an Inverclyde-wide conversation was generated by the Our Place Our Future survey.

This survey used the Place Standard tool and delved into a wide range of themes that affect an individual's overall health and wellbeing, from streets and spaces, to work, care, housing and local amenities. The first phase was coordinated and delivered by community planning partnership, the Inverclyde Alliance, with funding support from the Big Lottery Fund Awards for All Scotland.

1,310 people completed the main survey and an additional 83 young people responded to an adapted survey featuring some of the same questions. This represents 1.75% of the total population of Inverclyde and is the highest number of respondents Inverclyde Alliance has ever had to an engagement process.

Results have been segmented down to locality level to provide the partnership with a greater understanding of the issues that are affecting residents in their communities and what changes residents would like to see in their area.

## **NHSGGC Child Poverty Leads Network**

In December 2017, NHS Greater Glasgow and Clyde established a pan-GGC child poverty action co-ordination network. The purpose of the network is to co-ordinate board-wide corporate/acute service NHS action to reduce child poverty with local-partnership strategies and reports and to provide a forum for sharing evidence and learning across NHS GGC's six partner local authority areas. The network, is chaired by NHSGGC's Lead for Child Poverty, meets three times per year and involves senior maternity and children services staff, child poverty leads from each of the health board's six partner local authorities and health and social care partnerships, Glasgow's Child Poverty Co-ordinator and representation from the Glasgow Centre for Population Health. Outputs include a development session sharing local successes – including description of automation of local authority provided benefits – a best practice guide and local child poverty data resource. The network links into NHS GGC's Maternal and Child Health Strategy, Health and Employment, HR and Equalities and Financial Inclusion committees and reports to the Board Public Health subcommittee. **Appendix 3** details NHS child poverty actions undertaken in the main at a pan-GGC level.

## **Resources**

It is anticipated that cost of some of the projects in our delivery plan will be met from existing resources. Where indicative costs have been identified, these are noted in the plan. Opportunities to access external funding streams will also be explored where appropriate.

## **Equality Impact Assessment**

You can find the equality impact assessment on our Local Action Report here (weblink to be inserted)

## Links to other plans and strategies

The Inverclyde Alliance vision for Inverclyde is:

### **'Nurturing Inverclyde: Getting it Right for Every Child Citizen and Community'**

This means that the Alliance will work in partnership to create a confident, inclusive Inverclyde with safe and sustainable, healthy, nurtured communities, and a thriving, prosperous economy, with active citizens who are resilient, respected and responsible and able to make a positive contribution to the area.

Partners in Inverclyde recognise that poverty and deprivation limits opportunities and choice. That is why, within the Inverclyde Outcomes Improvement Plan, reducing inequality has been established as one of three strategic priorities that the Community Planning Partnership will focus on.

In addition to this, this delivery of the actions and projects within this Local Action Report, will make a significant contribution to the delivery of a range of strategic plans and priorities for partners across Inverclyde and these are noted in the Delivery Plan in Appendix1.

The links between the LAR and the area's high level strategic Plans is shown below:

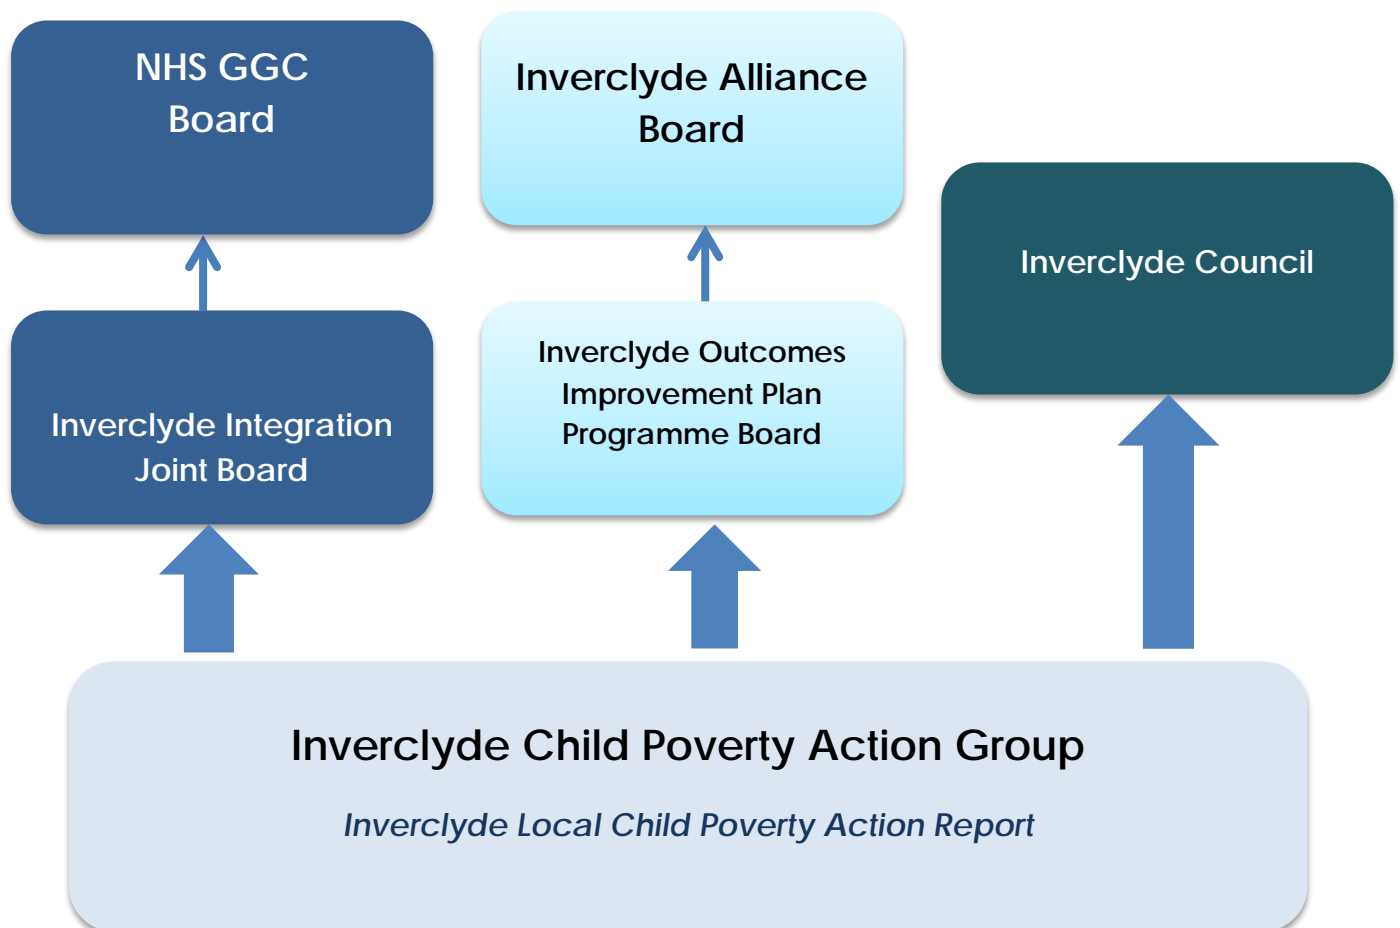

## Governance Framework

Immediate responsibility for the governance of this Inverclyde Local Child Poverty Action Report rests with the Inverclyde Child Poverty Action Group. This group meets on a regular basis and is chaired by the Corporate Director of Education Communities and Organisational Development, Inverclyde Council.

The cross-cutting nature of this Report and its central focus on reducing child poverty, means that it has a key contribution to make to the Community Planning Partnership's strategic aim of tackling inequalities. The Inverclyde Alliance Board, supported by the Programme Board will therefore provide leadership and scrutiny to the work of the Child Poverty Action Group, as well as helping to co-ordinate partnership activity.

Both the Council and NHS Greater Glasgow and Clyde have the lead responsibility for the delivery of projects and initiatives within this Report and as such, the management teams and relevant committees of both organisations will receive progress reports on the Delivery Plan.

<b>Implement Automated Payments (School Clothing Grant, Free school meals, EMA)</b>	Education Services and Finance Services, Inverclyde Council	£0 contained within overall budget	<p>Education Services currently provide application forms directly to families who have previously received School Clothing Grants/Free School Meals. The application forms are also sent to schools to encourage families who may be eligible to complete and return the application forms. There is also a full communication exercise using social and local media to encourage an increase in the take up of the benefits. Inverclyde uses the same form for applications for free school meals and clothing grants.</p> <p><b>The Year Ahead</b></p> <p>Work is currently being undertaken to explore methods of using information already held by Finance for Council Tax Reduction purposes to automate payments to ensure families received the benefits without the need to complete additional application forms. The application process may be a barrier to some eligible families so removing the responsibility to complete and submit a form with supporting evidence would increase the number of families receiving payments. It is acknowledged that not all scenarios will fit an automated process so the manual application will remain for those who require this.</p>		This action covers families with school aged children who are eligible for School Clothing Grants, Free School Meals and EMA	Inverclyde Corporate Plan, Inverclyde Outcomes Improvement Plan, HSCP Strategic Plan, Inverclyde Children's Services Plan	Cost of Living
<b>Change the eligibility criteria for Free School Meals, School Clothing Grant to</b>	Education Services and Finance Services, Inverclyde Council	£100,000	<p>Education Services provide Free School Meals in accordance with Scottish Government legislation. Entitlement for working families is approximately the equivalent of working no more than 16 hours per week at the National Minimum Wage. The same qualifying criteria are used for the provision of School Clothing Grants.</p>		This action covers working families on low earnings with school aged children.	Inverclyde Corporate Plan, Inverclyde Outcomes Improvement Plan, HSCP Strategic Plan,	Cost of Living

Action	Who action is carried out by	Resources allocated	Summary and how impact has/will be assessed	Timescale for action	Group(s) the action is intended to reduce poverty amongst	Link to other plans	Links to other Poverty Driver(s)
<p><b>Improve income maximisation referral uptake within antenatal, community child health, early years education and other community based services.</b></p>	<p>Advice Services &amp; NHS</p>	<p>£2,704 from NHS GGC</p>	<p>Healthier Wealthier Children (HWC) was a project that aimed to help families at risk of poverty. The project worked closely with antenatal and community child health, early years education and other community based services working with families at risk of poverty. It aimed to target pregnant women and families with young children experiencing, or at risk of, child poverty, as costs increase and employment patterns change around the birth of a child. Following the cessation of funding in October 2010 there was agreement for Inverclyde Advice First to provide income maximisation services and collate numbers of people benefiting and report on the financial gains received. Funding was then withdrawn in 2013. Inverclyde no longer had a dedicated resource which meant that the publicity and promotion to Health Visitors and Midwives to encourage referrals greatly reduced. Initially Health Improvement staff picked this up, however, due to lack of capacity this ceased. There is no longer a separate referral form or process meaning referrals have been subsumed into the generic referral process for Inverclyde Advice First.</p> <p><b>The Year Ahead</b> NHS GGC have received £63,750 for 2018/19 for enhancement of referral pathways into income maximisation for pregnant woman and families with children. This funding will also be available next year. The money should be used for:-</p> <ul style="list-style-type: none"> <li>• Create local capacity in Health Board areas to establish or enhance referral pathways</li> <li>• Plan and delivery training on child poverty, money matters and referral pathways for universal maternity and health visiting workforce</li> <li>• Develop formal referral pathways (including consideration of</li> </ul>		<p>This Action covers all priority groups due given it is aimed at antenatal, community child health, early years education and other community based services.</p>	<p>Inverclyde Corporate Plan, Inverclyde Outcomes Improvement Plan, HSCP Strategic Plan,</p>

			<p>electronic referrals)</p> <ul style="list-style-type: none"> <li>Negotiate additional capacity with local advice services.</li> </ul> <p>Inverclyde Council has been allocated £2704 of the £63,750. The proposed way to spent eh money locally is to commission CPAG (Child Poverty Action Group) to deliver input around maternity and other benefits. At the same time we will ask them to do a refresh on HWC (Healthier Wealthier Children) and set up an inbox for HWC referrals. The training will be delivered to approximately 25 Health Visitors and midwives before the end of the financial year. In turn, the 25 Health Visitors/Midwives will become local 'champions' and train all Health Visitors/Midwives locally. Impact will be measured by the increase in referrals from Health Visitors/Midwives.</p> <p>On a pan-NHSGGC basis NHS Greater Glasgow and Clyde staff have also worked to review and refresh the Healthier Wealthier Children intervention. Workshops and training sessions for new and existing midwives and health visitors were delivered to raise awareness of the new statutory duty on the NHS to work with local authorities to maximise the incomes of pregnant women and families with children and revise how to raise the issue of money worries and pathways into money advice services. Staff and client facing promotional materials were produced and development of electronic referral pathways explored.</p> <p>A money advice service continues to be provided to families in Royal Hospital for Children with average annual income gains of over £8,000 per family eligible for financial support.</p>				
<b>Maximise Income for</b>	Financial Fitness	£140,000	Financial Fitness's aim is to tackle poverty by ensuring local people have access to welfare benefit and financial advice and information		Due to the Service	Inverclyde Outcomes

**Inverclyde Local Child Poverty Action Report**

**Short, Medium and Long Term Planning Framework**

**June 2019**

### **Long Term Plan/Outcomes: (3-5 years)**

- To reduce inequalities (Inverclyde Local Outcome Improvement Plan)
- To reduce the prevalence of child poverty in our communities. (Inverclyde Corporate Plan)

### **Medium Term Plan/Outcome (1-3 years)**

- To maximum social security and benefits in kind for eligible children and families living in low income
- To support priority groups to ensure that they receive support and advices they need to increase their skills and move into work employment and training.
- To provide enablers such as affordable child care and transport to reduce the cost of living for families on low income

### **Short Term Plans/Outcomes; (12 months)**

- Automate payments for free school meals, school clothing allowance and educational maintenance allowance for families in receipt of Council Tax Reduction
- Provide a robust system that ensures all families are receiving maximised benefits.
- Train local champions within schools to raise awareness of cost of the school day
- Tackle Food Inequalities during the weekend and school holiday period.
- Provide training opportunities for young people through an expansion of the Apprenticeship Programme

**Paper No: You will be given this**

**Dr Sonya Scott, Consultant in Public Health  
Dr Noreen Shields, Planning and Development Manager**

## **NHS GGC Corporate and Acute Service Child Poverty Action Report 2018**

### **Recommendations**

The Public Health Committee is asked to:

- Note the work undertaken by NHS GGC staff in 2018/19 to meet our statutory duty to contribute to reductions in child poverty rates in Scotland.
- Respectively approve and endorse the planned actions by staff directly managed by the health board and delegated to Integration Authorities (IJB's) in pursuit of reduced child poverty levels in 2019/20, as described in our six local area child poverty action reports and summarised in this paper.
- Note the wider partner actions undertaken and planned to reduce child poverty in each of our six community planning partnership areas and continue to influence development of these through appropriate local partnership structures.

### **Purpose of Paper**

This paper aims to summarise the range of activities undertaken in 2018/19 by NHS GGC staff which contribute to reducing child poverty rates in Scotland and outline planned future actions for approval.

### **Summary of Key Messages:**

- The NHS has a new statutory duty to report in partnership with local authorities, action taken to reduce child poverty and maximise the incomes of pregnant women and families with children.
- A range of activity has been undertaken by corporate, acute and health and social care partnership (HSCP) health staff to contribute to reducing child poverty across Greater Glasgow and Clyde (GGC).
- Employability actions have focused on promoting NHS career opportunities and pathways into NHS employment via a range of activity including awareness and guidance sessions for unemployed people in the community and awareness and guidance training sessions for staff in Jobcentre Plus and employability advisors in partner agencies. IJB's also support, fund and deliver a range of employability programmes for groups of patients with specific engagement needs. Note the review of employability services funded and managed through GGC specialist mental health services hosted within Glasgow Integration Authority.
- Work has also been undertaken to understand and support staff financial wellbeing, with training for managers on universal credit and available sources of support for staff experiencing money worries.
- There has been a substantial amount of work undertaken to refresh and extend the Healthier, Wealthier Children Programme (HWC)<sup>3</sup>, including staff information and

---

<sup>3</sup> HWC is a programme routine enquiry about family financial wellbeing by maternity and health visiting staff and referral to money advice services where required.

training sessions and the development of staff support materials and promotional materials.

- HWC continues to result in substantial financial gains for families resident in GGC.
- An innovative and enhanced model of co-located money advice support for families has been piloted with our Special Needs in Pregnancy Service, highlighting the significant financial vulnerabilities of this patient group (average household income <£6000).
- Co-location of money advice services in GP practices in deprived areas has been successfully piloted in Glasgow.
- Evidence and data briefings have been produced and a development session hosted by NHS GGC to support evidence-informed action in partner local authority areas.
- In 2019/20 there will be a continued focus on improving the practice of routine enquiry of financial wellbeing. We will develop electronic referral pathways into money advice services for health visitors and in some HSCP areas pilot the co-location of money advisors with vaccination clinics in deprived communities. We will also explore how we can have a focus on parents within our employability programmes and understand current gains from community benefits with a view to maximising for children and families.

### **Any Patient Safety/Patient Experience issues**

This work seeks to improve patient experience by ensuring assessment and treatment of social health has parity with physical and mental health.

### **Any Financial Implications from this Paper**

NHS GGC received a small amount of funding (£2, 640) to provide for one month of a band 7 officer's time to report on child poverty reduction actions and an additional £63, 750 to: enhance referral pathways from maternity and children's services into money advice services, provide training for midwives and health visitors on family financial wellbeing and provide capacity in money advice services for responding to referrals from maternal and child services.

A recent review of NHS GGC's Healthier Wealthier Children (HWC) programme<sup>4</sup> noted the precarious nature of funding for money advice services, which are often reliant on non-recurrent funding and funding from charitable sources.

NHS GGC's Child Poverty Strategy seeks to ensure maximal community benefits are gained from our procurement spend.

### **Any Staffing Implications from this Paper**

Effective action requires strategic leadership on a board-wide and community planning partnership-specific basis and therefore time of health staff working in corporate and acute directorates and health and social care partnerships.

The new statutory duty requires that midwives and health visitors in particular, support action to maximise the incomes of pregnant women and families with children.

### **Any Equality Implications from this Paper**

---

<sup>4</sup> Naven, L. Review of Healthier, Wealthier Children (HWC) in NHS Greater Glasgow and Clyde. Glasgow Centre for Population Health. 2018. Available at: [https://www.gcph.co.uk/assets/0000/6927/Review\\_of\\_Healthier\\_Wealthier\\_Children\\_HWC\\_for\\_Financial\\_Inclusion\\_Group.pdf](https://www.gcph.co.uk/assets/0000/6927/Review_of_Healthier_Wealthier_Children_HWC_for_Financial_Inclusion_Group.pdf) [Accessed 4 February 2019]

Some members of our population are at greater risk of experiencing poverty in childhood. Action to reduce child poverty should therefore particularly benefit children of lone and/or young parents, children with disabilities and/or children of parents with a disability and black and minority ethnic children.

**Any Health Inequalities Implications from this Paper**

Health inequalities are fundamentally caused by inequalities in income, resource and power. Work to reduce child poverty will contribute to reduced inequalities in income and therefore inequalities in health outcomes.

**Has a risk assessment been carried out for this issue? If yes, please detail the outcome.**

No

**Highlight the Corporate Plan priorities to which your paper relates**

Produce and implement joint reports and plans on tackling child poverty including maintaining and developing the healthier, wealthier children programme and exploring how to use our role as an employer and procurer of goods and services to help tackle child poverty.

### 1. Purpose

This paper aims to summarise the range of activities undertaken in 2018/19 by NHS GGC staff which contribute to reducing child poverty rates in Scotland and outline planned future actions for approval.

- 

### 2. Background

The Child Poverty (Scotland) Act 2017 placed a new statutory duty on health boards to maximise the incomes of pregnant women and families with children and to jointly plan and report on these and other actions taken to reduce child poverty in each local authority area. The submission deadline for the first local area action reports is 30<sup>th</sup> June 2019.

Family poverty is associated with a range of health risks and adverse outcomes including unplanned pregnancy, smoking in pregnancy, stillbirth, injury in childhood, child neglect and maltreatment, emotional and behavioural problems and adverse health-related behaviours. Furthermore it is now known that household income is a cause factor in a child's cognitive, emotional, behavioural and physical development. It is estimated that £78 billion (£1 in every £5) is spent in the public sector each year dealing with the consequences of poverty.

Twenty-nine percent of children are living in relative poverty after housing costs<sup>5</sup> in NHS GGC. Over 40% of all children in poverty in Scotland are in the Greater Glasgow and Clyde Valley Region. Rates vary across local authority areas from 1 in 7 children in East Dunbartonshire and East Renfrewshire to 1 in 3 in Glasgow City. As a result of welfare reform it is predicted that if we do nothing child poverty rates in Scotland will increase from 26% to 38% by 2030.

Child Poverty is not inevitable, indeed rates halved in the UK between 1997 and 2012. The causes of poverty are often confused with the consequences which can impede progress in reducing rates of poverty. The new legislation and accompanying guidance makes clear that poverty is caused by the costs of essential goods and services outstripping household income from employment and/or social security. It requires local authorities and health boards to work with other community planning partners to consider and act on powers they have to maximise incomes and reduce costs for families.

In 2018/19 NHS GGC received Scottish Government funding of £2, 641 to report on child poverty actions and an additional £63, 750 to enhance the Healthier Wealthier Children (HWC) Programme. HWC is a programme of routine assessment of the financial wellbeing of pregnant women and families with children by health staff and where required referral into money advice services. This programme was established in NHS GGC in 2010. In the last eight years the programme has resulted in over £20 million financial gain for families living in GGC. Due to its success in NHS GGC it is currently being rolled out across all Scottish health boards. Recent funding has been provided to: enhance or develop referral pathways from maternity and children's health services into money advice services, provide training on addressing family financial wellbeing for midwives and health visitors and/or fund increased capacity within money advice services to respond to referrals from maternity and children's health services.

The majority of HWC monies (£35812) were disbursed according to the national funding formula to Health and Social Care Partnership (HSCP) health improvement teams. These

---

<sup>5</sup> defined as living in a household with less than 60% of the average household income for equivalent family size and composition

teams have been strategically leading HWC in their areas since 2013. The remaining £27938 (including South Glasgow and Renfrewshire’s HWC funding) has been used to fund continued provision of a co-located money advice service with our Special Needs in Pregnancy Service.

### 3. Approach

While statutory responsibility for local area planning and reporting falls to the NHS and Local Authority the guidance accompanying the legislation states, “we know that solving poverty requires collaborative working across a range of partnerships. In many cases it will make sense for the Community Planning Partnership process to provide a helpful vehicle to coordinate reports.”

Community Planning Partnerships (or similar partnership fora e.g. Glasgow City Poverty Leadership Panel) have therefore often been the structures through which local partnership strategies have been created, agreed and delivered.

Health staff have contributed to reducing child poverty on both a board-wide and locally specific basis. Board-wide actions are delivered through the following existing strategic groups: The Financial Inclusion Group, The Employment and Health Strategic Group and The Equalities and Health Group. At a local level health improvement staff in health and social care partnerships have been integral to, sometimes leading, local partnership planning processes.

NHS GGC staff can and have taken action to increase family incomes and reduce family costs in our role as an employer and in the provision of our service. Staff have also advocated evidence informed action to relevant partners where authority for action lies out with our control. Appendix 1 describes the range of action undertaken in 2018/19 within these categories.

#### Impact

Action to maximise incomes and reduce costs for pregnant women and families with children through Healthier, Wealthier Children and the Neonatal Expenses Fund have resulted in the financial gains for families in NHS GGC detailed in tables 2 and 3. Referrals and average financial gain have increased substantially between 2017 and 2018 for all services. This could be the result of improved detection of need and/or increasing levels of financial needs.

**Table 2. Healthier Wealthier Children referrals and financial gain Jan-Dec 2017 & 2018**

Year	Midwifery referrals	Health visiting referrals	Other referrals*	Average gain per family p.a.	Total gain
2017	293	1581	708	£2,100**	£2,498,258
2018	304 (4% ↑)	1965 (24% ↑)	767 (8% ↑)	£2,533**	£4,415,769

\*GPs and health care assistants

\*\*Approximately 46% of those referred take up the referral.

**Table 3. Money advice referrals from wards and Family Support and Information Service (FSIS) in the Royal Hospital for Children (RHC) and families supported through the Neonatal Expenses Fund 17/18 &**

18/19 (Q1-3)

	Number of families supported	Average gain per family p.a.	Income gained
<b>17/18</b>			
Referrals to money advice services from RHC wards and FSIS	361	£6,743	£2,434,358 (income)
<b>18/19 (Q1-Q3)</b>			
Referrals to money advice services from RHC wards and FSIS	332	£8,024	£2,664,077
Neonatal expenses fund	206	£195	£40,201

#### 4. Future Areas of Development

Appendix 2 details child poverty reduction-relevant actions which are planned for 2019/20.

•

#### 5. Challenges

- Local action to reduce child poverty necessarily requires relationships, intelligence and influence across a complex range of internal and external policy areas.
- Funding to NHS boards has been provided for one month of reporting activity only and being the same for all boards does not reflect local levels of child poverty or the number of local authority reporting partners.
- Despite clear and compelling evidence of effectiveness in maximising incomes, referral rates from maternity and health visiting services into money advice service are less than we might expect, more work is required to develop relationships between health and money advice services, embed routine enquiry in practice and reduce stigma of accepting a money advice referral.
- Demand for money advice services is increasing at a time of static or decreased funding<sup>6</sup>.

•

#### 6. Recommendations

The Public Health Committee is asked to:

- Note the work undertaken by NHS GGC staff in 2018/19 to meet our statutory duty to contribute to reductions in child poverty rates in Scotland.
- Approve and endorse the planned deployment of health resource in pursuit of reduced child poverty levels in 2019/20 as described in our six local area child poverty action reports and summarised in this paper.
- Note the wider partner actions undertaken and planned to reduce child poverty in each of our six community planning partnership areas and continue to influence development of these through appropriate local partnership structures.

**APPENDIX 1. Actions undertaken by NHSGGC staff to maximise incomes and reduce costs for families in 2018/19**

A	Employer-related actions	Poverty driver	Partners involved	Priority Groups <sup>7</sup>	How measure success?	Timeframe
A1	Promotion of NHS career opportunities and pathways into NHS employment via: <ul style="list-style-type: none"> <li>• schools engagement activity</li> <li>• awareness and guidance sessions for unemployed people in the community</li> <li>• awareness and guidance training sessions for staff in JobcentrePlus and employability advisors in partner agencies</li> <li>• college visits</li> <li>• attendance at community jobs fairs and careers events</li> </ul> . A total of 84 events have been hosted in 2018/19	Income from employment	NHS Workforce Employability Team Local Authority Education Services Developing the Young Workforce Regional Groups Jobcentre Plus Clyde Gateway Rosemount Learning Centre Prince's Trust Jobs and Business Glasgow	All	May be possible in future to report activity by SIMD of school, community organisation and report the number of parents reached.	2018/19
A2	NHSGGC pre-employment training programme delivered to 21 people, 13 of whom gained employment following the programme, 11 within NHSGGC.	Income from employment	NHS GGC Workforce Employability Team Clyde Gateway and partner agencies	All	Number of people supported into good quality employment.	2018/19
A3	Apprenticeship opportunities provided for young people including: <ul style="list-style-type: none"> <li>• 3 Foundation Apprenticeship Engineering placements for senior phase school pupils hosted by hospital based Estates Teams</li> </ul>	Income from employment	NHS GGC Workforce Employability Team and range of services across NHS accepting MAs.	All	Number of apprentices securing positive destination following	2018/19

<sup>7</sup> Lone parents, families with disabled member, families with child aged <1y, families with three or more children, BME families.

	<ul style="list-style-type: none"> <li>Modern Apprenticeship Programme recruitment (20 MAs starting with NHSGGC in next 6 months).</li> </ul>				programme.	
A4	Research on staff financial health needs and creation of an action plan to address those needs.	Income from employment, social security, reduced costs and mitigation of impact.	Public Health, staff participants across range of directorates.	All	As below for actions A5-A7	2018/19
A5	Poverty Awareness training for HR, occupational health and support and information services staff, delivered by Public Health Staff in partnership with Poverty Alliance and Child Poverty Action Group. Training content included Welfare Reform and 'in work' benefits, the rise in 'in work' poverty and the impact of poverty, how to raise the issue of money, the support and resources available and appropriate pathways for referral and signposting staff.	Income from employment, social security, reduced costs and mitigation of impact	Public Health Poverty Alliance Child Poverty Action Group	All	Number of staff trained (100 in 2018/19) Pre and post training assessments  Explore feasibility of monitoring number of staff supported through support and information services.	2018-20
A6.	Money advice information to be included with standard Payroll letters informing staff of either move from full to half or half to no pay during sickness absence or recovery arrangements for overpayments.	Income from social security. Reducing household costs.	HR and Payroll staff.	All	Standardisation of process.	2018/19

A7.	Money and debt advice webpage developed for managers and staff on NHSGGC intranet.	Income from social security. Reducing household costs. Mitigation of impact.	Public Health	All	Number of visits to website.	2018/19
A8.	Continued provision and promotion of family-friendly working policies and opportunities.	Income from employment and reduced costs.	HR	All but may particularly benefit lone parents and families with disability.	.	Ongoing
A9.	Continued provision of monthly payment scheme for annual travel cards for staff.	Reduced costs	First Glasgow, ScotRail, Scottish Passenger Transport.		890 staff benefited during 2018 calendar year.	Ongoing
A10	Provision of educational bursaries to support in-work progression for staff.	Income from employment	Learning and Education Team.	All	Number of applications received and awarded by job band.	2018/19
<b>B</b>	<b>Service-related actions</b>	<b>Poverty driver</b>	<b>Partners involved</b>	<b>Priority Groups</b>	<b>How measure success?</b>	<b>Timescale</b>
B1	Four child poverty information sessions reaching 70 staff in total across all HSCP areas, two chaired by Director of Nursing and in collaboration with University of Stirling, to raise awareness of new child poverty legislation and new statutory income maximisation duty , provided for health visiting, family nurse and senior midwifery staff.	Income from social security. Reduced costs	Director of Nursing, public health, health visitors, midwives, family nurses, academic colleagues.	All	Post-event evaluation on knowledge and confidence responding to money worries	2018/19

B2	Development of refreshed staff and patient-facing materials to promote new statutory duty, routine enquiry of financial wellbeing, maternity benefits available and referral pathway into money advice services.	Income from social security. Reduced costs	Public Health Communications colleagues	All	Number of referrals from midwifery and health visiting colleagues into money advice services.	2018/19
B3	Development of materials for staff on sources of support for asylum seekers who have no recourse to public funds.	Mitigation of impact	Public Health	All particularly black and minority ethnic families.		2018/19
B4	Further development and promotion of a poverty and financial inclusion e-learning module for staff. 83 staff have completed in 11 months from 1/4/18	Income from social security, reduced costs and mitigation	Public Health	All	Number of staff completing e-module	Ongoing
B5	Face-to-face briefing sessions for new midwives and Royal Hospital for Children staff on assessment of family financial wellbeing. 32 new midwives and 16 RHC staff attended these briefings.	Income from social security, reduced costs and mitigation of impact.	Public Health, midwifery and paediatric staff.	All	Number of staff trained	2018/19
B6	Development of team-level training programme on raising issue of money worries for existing midwifery staff.	Income from social security and reduced costs	Public Health, Glasgow City Health Improvement.	Priority groups highlighted	Increased referrals from midwifery teams into money advice services.	2018/19
B7	Training for new health visitors on financial wellbeing,	Income from	Public Health	Priority	Increased	2018/20

	benefits of income maximisation, referral pathways and broader employability services available from money advice providers.	social security and reduced costs	HSCP Health Improvement teams.	groups highlighted	referrals from health visiting teams into money advice services.	
B8	Use of health visiting peer champions for promotion of routine financial health enquiry and referral in Glasgow City HSCP.	Income from social security and reduced costs	HSCP Children and Families Teams and Health Improvement	All	Increased referrals from health visiting teams into money advice services.	2018/20
B9	Training and information for adult health service staff on assessment of patient financial wellbeing.  Information provided at nursing induction sessions in both Greater Glasgow and Clyde.  FI briefings provided to Diabetes MCN, Beatson and Pulmonary Rehab staff. 78 staff in total attended these sessions.	Income from employment, social security, costs of living and mitigation of impact.	Public Health and range of community and acute adult service staff.	All	Number of staff attending sessions.	2018/19
B10	Inclusion of a question on financial wellbeing in adult acute ward nursing admission documentation and associated staff training.  Three training sessions for senior nursing staff and 26 ward briefings delivered.	Income from employment, social security, costs of living and mitigation of impact.	Public Health and acute adult service nursing staff.	All		2018/19
B11	Development of a NHSGGC briefing for organisations representing priority groups on referral pathways from maternal and child services into money advice services.	Income from social security and reduced costs	Public Health		Increased referrals into money advice services for priority groups.	2018/19

B12	Management of the Financial Inclusion, Money Advice service in the Royal Hospital for Children (RHC) which provides parents/carers with a range of services to support their financial wellbeing including: benefits checking, income and expenditure support, financial capability and budgeting information debt management support, assistance with housing and eviction issues and energy advice. Parents and carers can also access emergency family funds and foodbank vouchers via the Family Support and Information Service co-located with the Financial Inclusion service at the RHC.	Income from social security and reduced costs. Mitigation of impact.	Public Health	All	Number of families' supported, average and total financial gain.	Ongoing
B13	Management of neonatal expenses fund for parents or guardians with either premature or sick babies in neonatal care to claim reimbursement for food and travel expenses.	Reduced costs	Public Health	Families with child under age of one.	Number of families supported and average financial gain.	Ongoing
B14	Facilitation of co-location of money advice services with Special Needs in Pregnancy Service (SNiPs) to target income maximisation support and advocacy to those with greatest financial health needs (e.g. average household income for this client group <£6000 per annum).	Income from employment, social security, reduced costs of living and mitigation of impact.	Third sector money advice service SNiPs staff, Glasgow City and Renfrewshire HSCP Health Improvement, Public Health	All, particularly pregnant women, young families.	Number of families' supported, average and total financial gain.	Ongoing
B15	Development of electronic referral pathway into money advice services developed for health visiting staff.	Income from social security, reduced costs.	Public Health, children and families staff, e-health, local authority and third sector money advice providers	All	Increased number of referrals into money advice from health visiting.	2018/20

B16	Regular feedback to health visiting teams on money advice referrals and patterns.	Income from social security and reduced costs.	HSCP health improvement teams	All	Increased number of referrals into money advice from health visiting.	Ongoing
B17	Analysis of uptake of healthy start food vouchers for low income families to support ongoing promotion to families by midwifery and health visiting staff.	Income from social security	Public Health, midwifery and health visiting teams.	All, particularly Pregnant women and families with children under one.	Increased uptake of health start benefit.	2018/20
B18	Survey of family financial health needs undertaken for families of children with disabilities attending child development centres.	Income from social security and reduced costs.	Families with lived experience of poverty. Specialist Children's Services. Glasgow City Council, Third sector Carers' Centre and Money Advice Services Public Health, Glasgow City HSCP Health Improvement.	Families with a disabled household member.	Increased money advice referrals from CDC staff. Average financial gain of £5000 per family supported.	2018/19

B19	Proposal developed and funding secured for research into the financial impact of pregnancy and possible cost-related barriers to attending antenatal care for low income families living in NHS GGC	Reduce costs, mitigation of impact.	NHS Health Scotland, NHS Ayrshire and Arran, Glasgow Centre for Population Health (GCPH), The Poverty Alliance, Child Poverty Action Group, Midwives, Family Nurses, Health Visitors, Public Health.	All, with particular focus on pregnant women and families with children under one year and inclusion of BME families.	Funding secured.	2018/19
B20	Financial incentives for pregnant women to stop smoking in pregnancy.	Mitigate impact of poverty	Midwives, Lead Midwives, University of Glasgow, Corporate Communications, HSCP Health Improvement Teams, eHealth, Public Health Directorate, Quit Your Way Services (Pregnancy, Pharmacy, Community, Acute)	All eligible pregnant women.	Number of women who receive full incentives by SIMD.  Number and rate of women who maintain quit at 12 and 24 weeks post-quit date.	2018/20
B21	Provision of a money advice service for adult users of acute health services with a cancer or long-term	Income from social security	Macmillan Cancer Support	All – universal	Total and average	Ongoing

	condition diagnosis. 92 (4% of all) individuals supported had dependent children. Total financial gains for these 92 families in 2018/19 financial year were £235, 698, an average gain of £2562 per family referred.	and reduced costs		service	financial gain	
B22	Colocation of money advice service in nine GP practices in deprived areas in North East Glasgow. Over 350 people supported in the first three quarters of 2018/19 with total financial gain of £1,148,423 for those benefiting financially.	Income from social security and reduced costs	Money Advice services, Clyde Gateway, Primary Care Teams, Glasgow City Health Improvement Team	All	Total and average financial gain	2018/19
<b>C</b>	<b>Advocacy</b>	<b>Poverty driver</b>	<b>Partners involved</b>	<b>Priority Groups</b>	<b>How measure success?</b>	<b>Timescale</b>
C1	Child Poverty Action network for local authority and HSCP leads established to co-ordinate board-wide and local area action and to share evidence and best practice across GGC.	All	All six local authorities and HSPCs, NHS Health Scotland, Public Health.	All	A number of supporting resources have been developed for local areas including an evidence briefing and data guide.	2018 -

## Equality Impact Assessment

## APPENDIX 2

This document should be completed at the start of policy development or at the early stages of a review. This will ensure equality considerations are taken into account before a decision is made and policies can be altered if required.

### SECTION 1 - Policy Profile

1 Name/description of the policy, plan, strategy or programme	Inverclyde Local Child Poverty Action Report resulting from Child Poverty (Scotland) Act 2017
2 Responsible organisations/Lead Service	Organisational Development, Policy and Communications Service
3 Lead Officer	Ruth Binks, Corporate Director, Education, Communities & Organisational Development
4 Partners/other services involved in the development of this policy	<p>Inverclyde Council, Inverclyde HSCP, NHS GGC and 3<sup>rd</sup> Sector organisations within Inverclyde are involved in the development of the Local Child Poverty Action Report.</p> <p>The Local Child Poverty Action report requires to be presented to the following Boards/committees:-</p> <ul style="list-style-type: none"> <li>• Alliance Board</li> <li>• CMT (Corporate Management Team)</li> <li>• IJB (Integration Joint Board)</li> <li>• Policy &amp; Resources Committee</li> <li>• Education &amp; Communities Committee</li> <li>• NHS GGC Board</li> </ul> <p>In addition to this, national partners (Improvement Services, SPIRU (Scottish Poverty and Inequalities Research Unit), Scottish Government and NHS Scotland are involved in supporting the development of the Local Child Poverty Action Report.</p>
5 Is this policy:	<p>New <input checked="" type="checkbox"/></p> <p>Reviewed/Revised <input type="checkbox"/></p>
6 What is the purpose of the policy (include any new legislation which prompted the policy or changes to the policy)?	The purpose of the Report is to reduce the number of children living in poverty. By placing statutory income targets on Government we will focus action on reducing inequality and poverty within the formative

	<p>years of children's lives.</p> <p>The Act sets out four national statutory income based targets to be achieved by 2030. The four targets are:-</p> <ul style="list-style-type: none"> <li>• <b>Less than 10% of children live in households that are in relative poverty</b></li> <li>• <b>Less than 5% of children live in households that are in absolute poverty</b></li> <li>• <b>Less than 5% of children live in households that are in combined low income and material deprivation</b></li> <li>• <b>Less than 5% of children live in households that are in persistent poverty</b></li> </ul> <p>The Act requires that each local authority and relative NHS Health Board must jointly prepare annual Child Poverty Local Action Reports (LAR's). The first report will cover the financial year 2018/19. These annual reports must set out the activity undertaken during the reporting period and those planned going forward to meet the 2030 targets.</p>
<p><b>7 What are the intended outcomes of the policy?</b></p>	<p>Tackling child poverty means tackling all poverty, ending the cycle of poverty for good. This involves producing actions to maximise household incomes, boost life chances and sustain high quality places where children can thrive and prosper.</p>
<p><b>8 Geographical area (Inverclyde wide or a specific location)</b></p>	<p>The Local Child Poverty Action Report covers Inverclyde in its entirety, however, Partners have recognised that there are particular communities in Inverclyde that suffer from higher levels of multiple deprivation and experience the greatest inequalities and therefore require targeted support and attention.</p> <p>The Inverclyde Alliance is currently developing its approach to locality planning in Inverclyde and has produced Locality Plans for three areas in Inverclyde which experience the greatest level of inequality and deprivation.</p> <p>The Scottish Attainment Challenge mentioned within the report is specifically targeting schools within communities where there's a predominance of children who live within SIMD 1 and 2.</p>
<p><b>9 Is the policy likely to have an impact on any of the elements of the</b></p>	<p><b>X</b> Eliminate unlawful discrimination, harassment and victimisation and</p>

<p><b>Council equality duty (if yes, please tick as appropriate)?</b></p>	<p>other conduct prohibited by the Equality Act 2010</p> <p><input checked="" type="checkbox"/> Advance equality of opportunity between people from different groups</p> <p><input type="checkbox"/> Foster good relations between people from different groups</p>
<p><b>10 Will those who may be directly or indirectly affected by this policy be involved in its development?</b></p>	<p>Your Voice (the Inverclyde Community Care Forum) have set up a 'Challenging Inverclyde Poverty' group in which members of the public attend. This will make sure that members of communities affected by poverty are able to get their voices heard on the policies and decisions that most impact their lives and lives of people in their communities.</p>

## SECTION 2 – Impact on Protected Characteristics

Which of the protected characteristics will the policy have an impact upon? (see guidance for examples of key considerations under each characteristic)

Protected Characteristic	Impact					Reason/Comments
	Positive High	Low	Neutral	Negative High	Low	
Age	X					Child poverty in Inverclyde is growing, with more than one in four children estimated to be living in poverty. The whole Child Poverty (Scotland) Act is about children. Children cannot by their own actions remove themselves from household poverty, therefore, the Local Child Poverty Action Report supports children and their families.
Disability	X					<p>Given the high prevalence of poverty for disabled people, families with a disabled adult or child are a priority group in the Tackling Child Poverty Delivery Plan. The employment rate for disabled people is significantly below that for the general population so disabled parents who are able to work may find it difficult to be accepted into paid work.</p> <p>Disability also creates additional costs. These include accommodation, heating, equipment, transport, medical supplies and insurance.</p> <p>As well as the additional costs of living for disabled people, their capacity - and the capacity of other household members - to earn income can be negatively impacted. Depending on the nature of disability one or more household members may be required to act as a carer full or part time which reduces the time that they would be able to undertake paid work.</p>
Gender reassignment			X			
Marriage and civil partnership			X			
Pregnancy and maternity	X					Households with a young child are a priority group in Scottish Government's Tackling Child Poverty Delivery Plan. The Healthier Wealthier Programme offers income maximisation advice for families experiencing child poverty and will aim

						to prevent families from falling into child poverty by working with health and early years services to identify families at risk at an early stage. Consequently the main service groups targeted for providing referrals to Healthier, Wealthier Children income maximisation services will be, in the first instance, midwives and other antenatal service staff, health visitors, oral health and breastfeeding advisers, parenting support workers, and early education staff.
<b>Race</b>	X					According to Scottish Government's Tackling Child Poverty Delivery Plan 2018 – 22, 37% of Minority Ethnic children are living in poverty and fall into the action within the Local Child Poverty Action Group of targeted groups
<b>Religion or belief</b>			X			
<b>Sex (male or female)</b>	X					According to statistics, women have higher poverty rates than men. The large majority of lone parent households are headed by women and these households tend to experience high poverty rates.
<b>Sexual orientation</b>			X			
<b>Other groups to consider (please give details)</b>	X					<p>The Inverclyde Child Poverty Delivery Plan 2018 – 22 has targeted its actions towards six priority areas. Structural factors outwith the control of these households can lead to many becoming trapped in poverty. Often, the main issue is lack of flexibility around work and care, but there are many factors at play including discrimination, which leads to the far higher poverty rates for children in these families as shown below (national figures):-</p> <ul style="list-style-type: none"> <li>• Lone Parents (36% of children in *relative poverty)</li> <li>• Disabled (30% of children in relative poverty)</li> <li>• 3+ children (30% of children in relative poverty)</li> <li>• Minority Ethnic (37% of children in relative poverty)</li> <li>• Youngest Child Aged &lt;1 (32% of children in relative poverty)</li> <li>• Mothers Aged &lt;25 (44% of children in relative poverty)</li> </ul> <p>*This is where some people's low income means that they struggle to participate in 'ordinary' economic, social and cultural activities. In Scotland relative poverty is determined as those earning less than 60% of the national average. While not as extreme as absolute poverty, relative poverty is still serious and harmful.</p>
<b>Fairer Scotland Duty</b>						<p>The Fairer Scotland Duty places a legal responsibility on particular public bodies in Scotland to actively consider how they can reduce inequalities of outcome caused by socio-economic disadvantage, when making strategic decisions. People in Scotland still experience significant socio-economic disadvantage and</p>

					<p>resulting inequalities of outcome.</p> <p>The Fairer Scotland Duty clearly links to the Child Poverty (Scotland) Act 2017, and the National Co-ordinator for Child Poverty also has a role to help public bodies implement the Duty successfully. People who are living in poverty are more likely to suffer from socio-economic disadvantage. The Local Child Poverty Action Report will have a positive impact on reducing inequalities of outcome caused by socio-economic disadvantage as all the actions included in the report are linked to the three main Poverty Drivers – Income from Employment, Cost of Living and Income from Social Security and Benefits in Kind.</p>
--	--	--	--	--	---

## SECTION 3 – Evidence

**What evidence do you have to help identify any potential impacts of the policy? (Evidence could include: consultations, surveys, focus groups, interviews, projects, user feedback, complaints, officer knowledge and experience, equalities monitoring data, publications, research, reports, local, national groups.)**

Evidence	Details
<p>Consultation/Engagement (including any carried out while developing the policy)</p>	<p>Inverclyde hosted an event during Challenge Poverty week in October 2018 at the Beacon Arts Theatre “Every Child Every Chance”. More than 100 representatives from across the public and third sectors attended this event which provided a robust platform on which to develop the Inverclyde Child Poverty Action Report.</p> <p>A second event is taking place in June 2019. The purpose of this event is to inform delegates of how their input in the past 12 months has informed the Local Action Report 2018/19 and Plan for 2019/20 to impact on child poverty in Inverclyde.</p>
<p>Research</p>	<p>There has been a vast amount of research completed focussing on Child Poverty from national partners including:-</p> <ul style="list-style-type: none"> <li>• Joseph Rowntree Foundation</li> <li>• Poverty Alliance</li> <li>• Scottish Government</li> <li>• NHS Health Scotland</li> <li>• Child Poverty Action Group</li> <li>• Scottish Equality and Poverty Research Unit</li> <li>• Improvement Services</li> </ul> <p>In addition to the research carried out by external partners, they offer support to Local Child Poverty Action Report Leads within Local Authorities.</p>
<p>Officer’s knowledge and experience (including feedback from frontline staff).</p>	<p>Actions included within the Local Child Poverty Action Report have been collated from Services within Inverclyde, NHS GGC, Inverclyde HSCP and 3<sup>rd</sup> Sector. Officers have immense understanding, many years experience and knowledge of their Service Area and the links to poverty.</p>

Equalities monitoring data.	A reduction in child poverty is likely to be of significant benefit to a wide range of people with protected characteristics that often experience higher rates of poverty.
User feedback (including complaints)	
Stakeholders  Other	Stakeholders are currently invited to provide feedback on the draft Local Child Poverty Action Report prior to submission on or before 30 <sup>th</sup> June 2019.
What information gaps are there?	

#### SECTION 4 – CONSEQUENCES OF ANALYSIS

<b>What steps will you take in response to the findings of your analysis? Please select at least one of the following and give a brief explanation.</b>		
<b>1. Continue development with no changes</b>		
<b>2. Continue development with minor alterations</b>	X	Feedback from stakeholders will be incorporated into the report, as appropriate.
<b>3. Continue development with major changes</b>		
<b>4. Discontinue development and consider alternatives (where relevant)</b>		
<b>How will the actual effect of the policy be monitored following implementation?</b>		

Inverclyde's Child Poverty Action Group will continue to meet on a regular basis and present progress reports on the delivery of the plan to relevant committees. The Local Child Poverty Action Report will be required to be submitted to Scottish Government on an annual basis, therefore actions will be monitored on an ongoing basis.

### When is the policy due to be implemented?

The first Local Child Poverty Action Report is due for submission to Scottish Government on or before 30 June 2019. Following submission of the report, work will continue to ensure that the tasks in Inverclyde relating to child poverty are streamlined, joined-up, makes the best use of resources and that the impact is being monitored.

### When will the policy be reviewed?

The Act requires that each local authority and relevant NHS Health Board must jointly prepare annual Child Poverty Local Action Reports (LAR's). These annual reports must set out the activity undertaken during the reporting period and those planned going forward to meet the 2030 targets. Reviewing will be ongoing.

### What resources are available for the implementation of this policy? Have these resources changed?

Poverty is multi-dimensional in nature and one organisation alone cannot deliver the change that is required to tackle its root causes. Collaboration is essential to bring resources, knowledge and expertise together that can make lives better for those children and young people in our communities experiencing the greatest inequalities. There are a number of partners involved in the implementation of the Report, examples of which include:-

- Inverclyde Council
- Inverclyde HSCP
- Financial Fitness
- SAMH
- Inverclyde Foodbank
- NHS GGC
- Social Security Scotland

To collate the work being carried out by all Services, Inverclyde Council has recruited a Corporate Policy Officer (Poverty) for a period of 2 years.

**Name of Individual(s) who completed the Assessment**

Name(s): Gail Baxter

Position: Corporate Policy Officer (Poverty)

Date: 9.4.19

**Authorised by**
