<b>Subject:</b>	<b>INVERCLYDE ADRS – CONCLUSION OF SERVICE REDESIGN</b>		

---

## 1.0 PURPOSE

1.1 The purpose of this report is to provide the Health & Social Care Committee with a final overview of the work progressed within the Inverclyde Alcohol and Drug Recovery Service to conclude service redesign.

## 2.0 SUMMARY

2.1 Inverclyde Alcohol and Drug Recovery Service (ADRS) has undergone a service review over the past 2-3 years. The final phase – the implementation plan of service redesign was put on hold at the start of the Covid-19 pandemic and recommenced again in September 2020. Four sub-groups have taken forward this work, reporting to a steering group.

2.2 We are in the final phase of the implementation plan, with all required elements of the workplan completed.

2.3 There is no longer a requirement for the continuation of the sub-groups therefore the role of the ADRS Steering Group has been fulfilled.

2.4 Ongoing service development will continue within a service operational plan, as national and board wide initiatives are developed and rolled out into practice.

## 3.0 RECOMMENDATIONS

3.1 The Health and Social Care Committee is asked to:

- note the level and activity undertaken as part of the service redesign as detailed in the attached report (Appendix 1);
- agree to conclude the ADRS Steering Group and associated sub-groups; and
- agree that future work will be delivered as part of the service operational plan and that future reports will be scheduled through the Alcohol and Drug Partnership.

## **4.0 BACKGROUND**

4.1 The ADRS Steering Group has overseen the implementation plan, taken forward across a range of sub groups to develop the new service model.

### **4.2 Workforce Subgroup**

Amendments to the staffing model, identified during the pandemic have been fully implemented. A number of posts are being recruited to in order to conclude this element of the workplan. Ongoing engagement and wellbeing events are held with staff to support them in the change.

### **4.3 Care and Treatment Sub-group**

We have developed, implemented and adapted a range of standard operating procedures to ensure safe, effective governance of new interventions and practice. By working alongside Board-wide ADRS colleagues to support equity of access to emerging new treatments and ways of working against MAT Standards.

### **4.4 Performance and Information Sub-group**

Implementation of DAISy reporting system is underway. The service will continue to review against other reporting arrangements in order to report on waiting times and provide service activity updates.

### **4.5 Prevention and Education**

Moved out of ADRS as part of redesign to ensure wider community education.

## **5.0 PROPOSALS**

5.1 This report seeks approval to conclude the ADRS Steering Group and associated workstreams. Ongoing service development will continue at operational level with regular reporting on activity via the Alcohol and Drug Partnership.
