1.0 PURPOSE AND SUMMARY

- 1.1 For Decision For Information/Noting
- 1.2 The purpose of this report is to present the Education Services Improvement Plan for session 2025-26 for approval.
- 1.3 Councils are required under the Standards in Scotland's Schools etc. Act 2000 to publish a plan with local improvement objectives.
- 1.4 Inverclyde Council's Education Services Improvement Plan 2025-26 is appended to this report. The Standards and Quality Report for 2024-25 which was reported to Committee in May 2025 provides a focused summary of educational progress and a flavour of the work delivered by our establishments from April 2024 to April 2025. The Standards and Quality Report identified key areas where Inverclyde Education Services can improve further and draft targets for the Improvement Plan were shared.
- 1.5 This report shares the full final plan for 2025-26 and all actions that will be undertaken to achieve the intended outcomes. The plan is already under way and initial progress is being made. The plan seeks to support the ongoing improvement process of Schools and Early Learning Centres (ELC), addressing key areas for improvement.
- 1.6 For greater detail on the plans of any individual school, Elected Members should refer to the school or ELC's own Improvement Plan posted on their website. For schools this include details of how they will spend their Pupil Equity funding over the same time period.

2.0 RECOMMENDATIONS

- 2.1 It is recommended that the Education Committee approves the content and the publication of the Improvement Plan for 2025 - 26.

Corporate Director Education, Communities & Organisational Development**

3.0 BACKGROUND AND CONTEXT

- 3.1 Previously, authorities were required under the Standards in Scotland's Schools etc. Act 2000 to publish an annual report on progress towards meeting both national priorities and local improvement objectives. Statutory guidance under the Standards in Scotland's Schools etc. Act 2000 as amended by Section 4 of the Education (Scotland) Act 2016 which imposed new duties on authorities with effect from August 2017. The new duties focus on the following main issues:
- Pupils experiencing inequalities of outcome.
 - The National Improvement Framework (NIF).
 - Planning and Reporting.
- 3.2 The new duties for planning commenced on 1 August 2017 with an expectation that reports on progress are produced as soon as possible after 31 August 2018.
- 3.3 As in previous years the annual report is made up of two parts, the Standards and Quality Report (presented to the Education Committee in May 2025) and the Improvement Plan. The Standards and Quality Report identifies progress made over the last year against authority priorities and the NIF. It contains the findings from our ongoing self-evaluation, including successes and identified next steps for improvement. The Education Services Improvement Plan shows how Inverclyde Education Services will pursue continuous improvement in key areas over the coming year.
- 3.4 The Improvement Plan identifies how we hope to build upon our success and further improve education in Inverclyde. Our key priorities remain consistent. This is because we made a commitment to schools to prioritise a few key areas and to provide continued support in these areas and not to overwhelm schools with competing priorities or levels of bureaucracy. We have further focussed the number of actions, priorities and projects against each national priority.
- 3.5 The Improvement Plan is written under the key national priorities which are:

- Achievement with a focus on literacy and numeracy
- Closing the gap between the most and least disadvantaged
- Improvement in mental health and well-being
- Skills and sustained positive school leaver destinations

As well as this we also have two other areas of focus:

- Getting it right for every child
- Improving outcomes of care experienced children, young people and their families.

- 3.6 In the plan the actions and priorities we are taking as a service to address the first of these i.e., human rights and the needs of every child and young person, are highlighted in green. We see human and children's rights a golden thread throughout the plan.

Education Services

Improvement Plan 2025/26

Introduction

Welcome to the Inverclyde Education Services Improvement Plan. This plan forms the second part of our reporting and planning process for 2024/25 and 2025/26. The first part of this process is the Standards and Quality Report (SQR) for 2024/25 which can be found here: [Education Services in Inverclyde - Inverclyde Council](#). The SQR allows us to report on our successes, the improvements we have made during the last year and to identify any areas for further development through our self-evaluation processes. Through our rigorous self-evaluation, we identify where we are performing well and areas that still require further improvement. In this way we can target our priorities for improvement over the coming year. A full glossary of terms used can be found at the end of the document.

The National Improvement Framework (NIF) requires an authority to prepare and publish annual plans and reports describing the steps they intend to take forward in pursuance of the NIF and the steps they have taken to improve outcomes over the course of the planning period.

The five priorities of the NIF are:-

- Improvement in mental health and well being
- Skills and sustained positive school leaver destinations
- Achievement with a focus on literacy and numeracy
- Human rights for all children and young people
- Closing the gap between the most and least disadvantaged

In the plan below, the actions and priorities we are taking forward as a service address these priorities. We have retained a focus on getting it right for every child and our care experienced young people by having these as separate priorities. We continue to see the fourth priority i.e., human rights for all children and young people, as a golden thread throughout the plan, and as such have indicated how we are addressing these by highlighting actions relating to rights in green throughout the plan.

NIF Outcomes (previously drivers)

The previous six drivers of improvement have now been replaced with 7 key outcomes, the delivery of which will lead to improved educational outcomes for children and young people which are:

The outcomes we expect to achieve are:

- a globally respected, empowered, and responsive education system with clear accountability at every level that supports children, young people, and adult learners to thrive. The system enables the development of their knowledge, skills, values, and attributes that give them the best opportunity to succeed and contribute to Scotland's society and economy
- young people experiencing the benefit of schools and early years settings working in excellent partnerships with wider children's services and other partners, families, and communities, in line with the GIRFEC approach
- inclusive and relevant curriculum and assessment which gives young people the knowledge and skills necessary to contribute to society, and shape a sustainable future, while celebrating and supporting progression for all
- high levels of achievement across the curriculum for all learners, with action to close the poverty-related attainment gap
- highly skilled teachers and school-leaders driving excellent learning, teaching and assessment for all, especially those with additional support needs
- improving relationships and behaviour, and attendance, with increased engagement in learning and a culture of dignity and respect for all
- an education system engaging in digital technology to enhance all aspects of learning and teaching, supported by a digitally-skilled workforce and tackling digital inequality

Towards Empowerment

We will also consider how we can support the following dimensions of empowerment in our planning: autonomy, professional learning, participation and engagement collaboration, resources and impact.

Inverclyde's Strategic Outcomes for Children and Young People

Taking the national priorities into account, Inverclyde Education Services has identified strategic outcomes for the children and young people in our early learning centres and schools. These are:

- Enhanced leadership at all levels will impact on learners ensuring that their outcomes continue to improve and are above national averages on all measures.
- All children and young people benefit from high quality learning experiences.
- All children and young people benefit from strong partnerships having been developed with families and the wider community. The ongoing partnerships contribute directly to raising attainment and achievement, and to securing positive and sustained destinations.
- All children and young people make expected or better than expected progress in all learning, but especially in literacy and numeracy, regardless of their background. Young people in Inverclyde use the skills they develop in our schools to achieve positive and sustained destinations.
- All children and young people in Inverclyde experience a high-quality curriculum that meets their needs.
- All children and young people feel safe and included in our schools and are achieving their potential.

The plan will be evaluated by the Education Officer SIP oversight group which also tracks the progress of the plan at regular intervals throughout the year and will feed into the wider Children's Services Plan. The group meets at least four times a year to collate progress made, identify emerging impact and to analyse the data linked to the identified actions.

The Inverclyde Education Services Improvement Plan does not sit in isolation, it is informed by the overall alliance partnership plan, council plan Corporate Directorate Improvement Plan for Education, Communities & Organisational Development and the Inverclyde Children's Services Plan 2023-26.

The Inverclyde Education Services Improvement Plan directly supports the delivery of the following Inverclyde Alliance outcomes:
